ABOUT

Current Masters student in Computer Applications who is determined to learn from each step taken forward. Generating the ability to accept challenges and be upfront. Building myself to be available for the environment that would be provided to me with the aim to turn ideas into reality. I will take risk, push boundaries and grow more. I want to build a strong professional network through the opportunity that will be provided to me. Keen and excited to align myself to be the CEO of what I do. An ex-DISHA scholar, looking forward to improve myself in the desired field.

EDUCATION

Kalinga Institute of Industrial Technology, India <i>Master of Computer Applications. CGPA :9.52</i>	2023 - Ongoing
UM-DAE Centre for Excellence in Basic Sciences. India <i>Bachelor's in Biological Research. Was a part of the DISHA scholarship. CGPA 8.00</i>	2020 - 2023
Loyola School. India <i>Completed my higher secondary education with ICSE(92%) and ISC(89%) certifications.</i>	2018 - 2020

SKILLS

Languages:	Java, Javascript
Tech stack:	React.js, Next.js, Node.js, Express, MongoDB

LEARNING PROJECTS

Web Development and Networking - Created a patient appointment website where one can make appointments with Doctors, with SMS notifications on scheduling and cancelling appointments. https://patient-app-theta.vercel.app/ - Created a small ReactJS project where the weather API gets called. https://weather-app-ashen-kappa-75.vercel.app/ - Currently expanding my knowledge in networking through exploration and continuous learning of concepts like TCP/IP, Switching and more on. - Understanding concepts of Docker and Kubernetes to organise and orchestrate various containers for a specific image.	2023 - Ongoing
Wet Laboratory - Worked on breast cancer cell lines, implementing the ayurvedic properties of herbs, which reduced the growth of cancerous cells using nano-particle technology. This helped me build my troubleshooting and inquisitive skills for a problem in particular.	2020 - 2023

EXTRACURRICULAR

Games Club - Was a part of the games club during my tenure in Bachelor's. This helped me to develop strategies due to participation in strategy based games. Helped me to be a part of an environment involving healthy and friendly competition among players. - Was a club level Cricket Academy Player during my matriculation.	
Event Management - Was a core member of the event management team in the college where I was successful in handling programs which involved the participation of various renowned scientists.
